Forecast for Wednesday 02 Sep 2020

Weather: Light, patchy rain will mainly affect western parts at first but this will start to push eastwards, with a band of heavy rain following behind. Some heavy bursts could be accompanied by thunder. Rain becoming lighter during the evening with some clear intervals towards midnight.

Chance of cloud free mountain/hill tops above 800m: 10% with low cloud expected throughout the day, covering hill tops much of the time.

Visibility: Generally moderate or poor.
